Engineering Excellence Awards 2008

CONCEPTOR AWARD

An Historic Waterfront Reborn

Development pressure in the City of Lewes threatened to convert an historic boatyard into condominiums. To preserve the site, the City acquired the parcel and incorporated a new canalfront park into their master plan. Duffield Associates provided civil, environmental, structural, and geotechnical engineering and construction review services for the project's landscape architect.

The park incorporates elements including: a waterfront boardwalk; a fishing pier; floating docks; a restroom facility; shade arbor; walkways; and, landscaped areas.

The bustling canalfront is now a great gathering place for family and friends or for an after-dinner stroll to take in the sights and sounds of the waterfront.

Engineering Challenges...

...Award-Winning Solutions

Duffield Associates was awarded a 2008 Engineering Excellence award from the American Council of Engineering Companies - Delaware. This award recognizes engineering achievements that demonstrate skill and ingenuity while providing significant benefit to the public.

Duffield Associates is an award-winning geoscience consulting firm with offices in Wilmington and Georgetown, DE, Philadelphia and Carlisle, PA, Cape May Court House, NJ, and North East, MD.

Our engineers and scientists have provided innovative solutions for over 30 years in the following service areas:

- Geotechnical Engineering
- Environmental Consulting
- Water and Infrastructure Engineering
- Ecological Services
- Coastal/Waterfront Engineering
- Construction Review/Testing
